About your SmartWater system

SmartWater is a colourless liquid that holds a unique forensic code specific to only you and acts as an effective deterrent to burglars. Many burglars know that the Police check stolen property for the presence of SmartWater and, if it is found, that the property can be traced back to the rightful owner. Therefore, displaying the SmartWater logo in prominent locations such as windows and doors sends a powerful warning to burglars.

As an added benefit of your Home & Legacy coverage, you will receive your SmartWater System within 30 days. Inside your packet you will find detailed instructions, please read through them carefully to ensure that you comply with the manufacturer's instructions in full. While the use of your SmartWater System is not compulsory, we urge you to take full advantage of this complimentary system to further protect your valuables.

Facts about SmartWater

- It can be applied to anything you deem of value from jewellery to electrical items
- Proven to be a powerful deterrent to burglars
- Virtually impossible to remove
- Recognised by Police
- Provides irrefutable evidence of ownership
- 100% conviction record in court

'74% of criminals said they would abandon their plans to break into a building if a SmartWater deterrent label was on display.'

An Evaluation of SmartWater: Offenders Perspectives, Professor Martin Gill, Perpetuity Research, 2008
