

Household Contents Insurance Calculator

A SIMPLE GUIDE

Get the cover you need

It is essential that you have the right amount of insurance to protect all the contents of your home.

Too often, people underestimate the total value of their belongings – only finding out when they make a claim they are insufficiently covered.

Valuing your contents

We have provided this checklist for use as a guide to help you to assess the value of your contents and possessions.

This form can be completed online. If you prefer, you can print the form (in landscape format) and complete it manually.

Your contents and possessions should be insured for their full replacement cost. As you complete the checklist please remember to write down how much it would cost you in pounds (£) to replace everything you own as new, not the original purchase price.

Your completed checklist can be returned to your insurance intermediary or to Home & Legacy together with your instructions for any cover amendments required.

It is your responsibility to get your contents sums insured right. Use of this checklist should not be considered to be a full and accurate calculation of the value of your contents and possessions. You should always consult a professional valuer to obtain an accurate valuation.

Data Protection

You can find out how we collect, use and store personal information in our 'Privacy Notice' at homeandlegacy.co.uk. If you would like a printed copy, please contact us.

Your contents cover checklist
